
GeoNode Developers Workshop Documentation

Release 2.0

GeoNode

January 17, 2013

CONTENTS

1	Introduction GeoNode development	3
2	Installing GeoNode	5
3	Creating a GeoNode development environment	7
4	GeoNode dependencies and integration	9
5	GeoNode APIs	11
6	Managing the GeoNode code with git	13
7	GeoNode projects	15
8	GeoNode development and debugging	17

Welcome to the GeoNode Developers Workshop! This workshop will teach how to develop for the [GeoNode](#) software application.

INTRODUCTION GEONODE DEVELOPMENT

INSTALLING GEONODE

CREATING A GEONODE DEVELOPMENT ENVIRONMENT

GEONODE DEPENDENCIES AND INTEGRATION

GEONODE APIS

MANAGING THE GEONODE CODE WITH GIT

GEONODE PROJECTS

GEONODE DEVELOPMENT AND DEBUGGING

Introduction GeoNode development Learn about the GeoNode development process and software requirements

Installing GeoNode Learn how to install a basic GeoNode instance

Creating a GeoNode development environment Learn how to set up a GeoNode development environment

GeoNode dependencies and integration Learn about the GeoNode core dependencies and integration with GeoServer

GeoNode APIs Learn about the GeoNode APIs

Managing the GeoNode code with git Learn how to use GitHub to effectively develop GeoNode

GeoNode projects Learn how existing projects leverage GeoNode and create your own

GeoNode development and debugging Learn how to develop and debug GeoNode instances and work with the GeoNode developer community
